

Dear Parents,

We are delighted to welcome our students back in school in the academic session 2022-2023. We understand that the pandemic years have been challenging for our children in more than one way and have resulted in some learning gaps despite sincere efforts from both you and us. Therefore we would like to conduct diagnostic assessments for classes VI-VIII before the commencement of the new session. Mindspark, a programme of Educational Initiative, an advisory organization to CBSE has agreed to conduct these diagnostic assessments for our students to test the core concepts in English, Mathematics and Science outlined by the CBSE. These assessments will be conducted **online on Zoom from 7th-9th April, 2022** and are **mandatory for every student**. Students will come to school in person from **11th April, 2022**.

Please note, the details of the Diagnostic Assessments are as follows:

- 1. English: 7th April, 2022 - 10 am**
- 2. Mathematics: 8th April, 2022 - 10 am**
- 3. Science: 9th April, 2022 - 10 am**

(Each test will be of 75 minutes)
